

## **Wedding prices and information 2015**

Tony's skills at capturing the moments that tell the story of your wedding day have been developed through over 20 years' experience as a press photographer. His approach to wedding photography is natural, candid and unobtrusive, and the photos truly speak for themselves. In the words of one happy couple:

*"Thank you for your professionalism, calm and relaxing nature, and your expertise. We felt safe in your hands, and you made our day look amazing."*

Of the hundreds of photos taken at your wedding, Tony supplies around 400 photos to you on disk, all of which have been individually edited and colour corrected by the photographer.

Tony covers your wedding day from bride, bridesmaids and groom and groomsmen getting ready through to the first hour of your reception. The price is \$3000+ GST. If you require Tony for a longer (or shorter) time, he is open to negotiation and will adapt to your needs.
